# Dmytro Yevlakhov

Senior Full-stack Engineer | TypeScript, React, Node.js, NestJS, AWS

yevlakhovdmytro@gmail.com linkedin.com/in/dmytroyevlakhov

AI-assisted development (Claude Code, Cursor) · Remote B2B

## SUMMARY

Full-stack engineer with 7+ years of commercial experience building web applications with TypeScript, React, Node.js, and AWS. Built analytics dashboards and backend services for an ad monetization platform at Unity / ironSource and independently launched a cross-platform React Native app at Career PRO.

## PROFESSIONAL EXPERIENCE

**Unity** , *Software Engineer* 11/2022 – 10/2026 | Remote

- Initiated the migration of a custom Express API to NestJS and designed separate services. Moved selected operations to an Amazon SQS worker so API requests could return before processing finished.
- Built analytics dashboards and metric visualizations for game developers using React, Next.js, TanStack Query, and TanStack Table.
- Proposed and implemented gRPC between production microservices, defining typed service contracts with Protocol Buffers.
- Provisioned AWS queues and access permissions for new services with Terraform and updated CI/CD workflows in CircleCI and GitHub Actions.
- Built custom Claude Code skills and agents to automate recurring engineering tasks.

**ironSource,** *Senior Software Engineer* 02/2022 – 11/2022 | Remote

- Shipped features across the React frontend and Node.js backend of a self-service platform for ad monetization and user acquisition. Continued working on the same platform at Unity.

**Career PRO (then Huntd),** *Full Stack Developer* 01/2021 – 12/2021 | Kyiv, Ukraine

- Designed, built, and launched a cross-platform mobile app for real users as the sole developer, using React Native and Apollo GraphQL.
- Set up automated testing and CI/CD for mobile releases and managed app store submissions.

**Mate Academy** , *Full Stack Developer & Frontend Coach* 07/2019 – 01/2022 | Kyiv, Ukraine

- Delivered the end-to-end monobank API integration for student loans and installment payments, working directly with the bank's managers and engineers from requirements through testing.
- Mentored students alongside full-stack development and later became a Frontend Coach. Reviewed student code, led Q&A sessions, and developed frontend curriculum modules.

## SKILLS

**Frontend & Mobile:** TypeScript, React, Next.js, React Native, Redux, Recoil, TanStack Query (React Query), TanStack Table

**Backend & Data:** Node.js, NestJS, Express, REST, GraphQL, Apollo, gRPC, Protocol Buffers, PostgreSQL, Redis

**Cloud & CI/CD:** AWS (SQS, SNS, Lambda, EC2, RDS, S3, CloudFront, CloudWatch, IAM), Terraform, CircleCI, GitHub Actions

**Testing:** Cypress (end-to-end), Jest (unit testing)

## EDUCATION

**Kharkiv National University of Radio Electronics,**
*Bachelor's program in Computer Software Engineering, expected May 2027*

## LANGUAGES

**English** (B2) | **Ukrainian** (Native) | **Russian** (Native)
